**N**ARO has been called one of the most successful associations in the United States. It is credited with the leadership role in winning nearly \$15 million in exemptions for royalty owners since its founding in 1980—a return of \$1,000 for each \$5 invested in NARO membership by its members.

*It is the only national organization in the United States devoted totally to the royalty and mineral owner and is recognized by Congress, State Legislatures, national media and the energy industry as the authority on matters pertaining to mineral and royalty owners.*

*Education of its members in mineral land management practices has become an increasingly vital goal of NARO.*

*Many members are owners of small royalty interests that provide needed survival income for retirement or farm-ranch operations. Others include family-held mineral trusts, partnerships and corporations, investors, full-time mineral managers, oil and gas attorneys, landmen, geologists, independent producers, public institutions such as hospitals and foundations, and other industry professionals.*
